New landmarks

This supplement expands the landmarks introduced in Sandbox Generator (SG). The three types of landmarks are: natural, artificial and magical (see SG pp. 18-20).

The updated tables can be found below. Roll 1d8 on the appropriate one to determine the type of landmark found:

2	Fauna (B)	p. 12
3	Flora (A)	p. 14

5	Magic remains	p. 50
6	Misunderstood tech.	p. 52
7	Place of power	p. 54
8	Strange phenomenon	p. 56

For the preexisting categories, use the same tables as always. For the new ones, roll 1d10 on the appropriate table on the next page.

Moreover, tables for each landmark are also provided in the following pages. They are filled with ideas on what could be found next to or inside the landmark. These are not always mutually exclusive. Sometimes, all six can apply at the same time. For this reason, it can be interesting to choose several items rather than just rolling dice.
